The Doctrine and Beliefs of Celestial Grace Ministry

Temple Doctrine for Pastors, Ministers and Spiritual Counselors:

- 1} Broadcast and teach the true words of God written in the Bible, from both the Old and New Testaments.
- 2} Assist people in the interpretation and understanding of biblical and other theological script.
- 3} Teach people the concept of spirituality, that every human being has a living immortal spiritual soul within them, and that it will ascend into the spiritual realm of existence after physical death; that there is a community of spiritual angelic beings that live together in love and harmony in God's celestial kingdom, and that they have the capability to help and protect humans under the direction of God.
- 4} Help people to understand the Holy Trinity – God the Father/Mother, God the Son, and God the Holy Spirit which are three entities in one Supreme Being, and that God is omnipresent, that His Holy Spirit is present in all life forms at all times in all places.
- 5} Teach how to love and understand God.
- 6} Teach people that **Jesus Christ** is the spiritual born Son of God in human form, that He was born from a human virgin woman, preformed many amazing miracles on Earth, taught astounding spiritual wisdom, lived a totally sin free earthly life, and has the power to forgive sin by way of His suffering, crucifixion and death.
- 7} On the third day after His death by crucifixion, He arose from His entombment and became alive again, stayed on Earth for another 40 days, and then ascended in physical form to heaven, to the throne of God, hence and will return to Earth a second time.
- 8} Teach people the secret words of Jesus Christ.

9} Teach people that by loving God and believing in His Son **Jesus Christ**, they can be forgiven of their sins on Earth, be resurrected from the dead, given a new perfect ageless body, and be placed in God's Heavenly Kingdom of paradise for eternity.

10} Teach people that Satan is a fallen angelic being from God's kingdom who turned vain and adversarial, and that he corrupted many other angelic beings into rebellion who were also removed from God's kingdom, and that they dwell unseen in a celestial, spiritual form within the ethereal bowels of the Earth, and attempt to corrupt mankind by manipulating their thoughts and emotions to commit immoral and despicable acts.

11} To teach people how to resist and overcome satanic temptations that may cause them to commit immoral or sinful acts and to overcome selfishness, arrogance, greed, dependency, resentment, prejudice, hatred, anger, and lascivious lust.

12} Teach people how to pray and how to spiritually meditate. Offer holy prayer and Godly blessings to all who are in need; lift up the spiritually weak, and when possible, protect the innocent.

13} Offer kindness and compassion for those who are lonely, that are in emotional discomfort, that have an affliction, are suffering in pain or are in anguish, and for those who are without common human necessities.

14} Attempt to heal people who have sickness, illness, infirmities or harmful addictions through holy prayer and by using the spiritual healing powers given through the name of Jesus Christ.

15} If it is believed that a person is demonically possessed, attempt to verify there is a demon present within them. If it can be verified by a trained qualified Spiritualist, then attempt to extract the demon from the person.

16} However, never allow an untrained person to attempt a demon extraction or exorcism, and never attempt and extraction alone.

17} Be kind, caring and affectionate to all of God's non-human life forms such as animals, plants and trees, and respect the balance and harmony of nature.

18} Pray and care for the environment of God's Earth, to prevent it from becoming polluted and contaminated by the abuse from greedy, careless, satanic influenced people.
